OVERVIEW

I am an efficient and creative programmer with a strong vision for marketable product development. I am excited to bring my talents and interests to a dynamic team. Eight years of experience in the brain injury rehabilitation field have strengthened my organizational, communication, and interpersonal skills. I enjoy the consistent challenge and considerable rewards of contributing to the internet which I regard as a fascinating achievement of humankind that brings profound opportunities for connection.

SKILLS

I have experience building unique and effective full-stack web applications using HTML, CSS, JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB and Mongoose, SQL, PostGreSQL and Sequelize, Ruby, Ruby on Rails, Jest testing, and using Git and Github and the agile framework in a team project development setting.

EXPERIENCE

Wegmans, Cary, NC - *Pricing Coordinator*

AUG 2023 - PRESENT

- Ensure accurate pricing and weights and measures information throughout store
- Provide exceptional customer service experience by providing product location and pricing information and resolving discrepancies in a timely manner
